fórmula
FE DX1

5W-30

Fully synthetic engine oil, specifically developed for use with American and Asian engines, according to GM's dexos1 Gen3 Standard.

Modern gasoline engines equipped with direct fuel injection systems, with or without exhaust gas treatment systems, typically run at extremely high temperatures, thus requiring high-performance oils. Use of this motor oil reduces low-speed pre-ignition (LSPI) phenomena.

This motor oil also includes advanced additives, which provide better protection and improve motor performance, in addition to maximizing fuel savings and preventing deposit formation in the turbocharger.

MAIN FEATURES

Density at 15°C, kg/l (D1298/D4052)	0.85
Viscosity Index (D2270)	162
Kinematic viscosity at 40°C, mm ² /s (D445 / D7042:)	60
Kinematic viscosity at 100°C, mm ² /s (D445 / D7042:)	10.9
Pour Point, °C (D92)	max -39
Flash Point, °C (D92)	226

SPECIFICATIONS / APPROVALS

API SN
Dexos1 Gen3
ILSAC GF-6A

PROPERTIES:

- Significantly reduces low-speed pre-ignition (LSPI) phenomena.
- Provides additional protection to the turbocharger by minimising deposit formation.
- Excellent protection against rust and corrosion.
- Highly resistant to oxidation, allowing for longer intervals between oil changes.
- High protection against wear, thus extending the useful life of the motor.
- Lower fuel consumption.

PACKAGING:

- IBC 1000 L
- Drum, 205 L
- Box, 4 x 5 L
- Box, 18 x 1 L

FPC 916 – NOV15 R&D – LUB - GPA

Help protect the environment: do not dispose of used oils by dumping them in drainage systems, waterways or on the ground. GL15003a

ABOUT GALP:

An integrated Energy Company with worldwide recognition in sustainability initiatives and awarded the top place in this field from the Dow Jones Sustainability Indices for eight years running, GALP is proud of top high quality tested and fully approved products. From base oils to aromatics, motor oils and fuels, the meaning of being an integrated oil company means just that the full life cycle of its products goes from the exploration and production, refining and production of finished lubricants. Not a simple blender, being an integrated company means, literally, producing a product from its source to the consumer hands.
