

fórmula
PLUS**5W-40**

100% synthetic lubricant, intended for gasoline and diesel car engines.

Provides excellent protection against rust and oxidation, at high and low temperatures.

It exhibits high stability of the lubricating film and cutting resistance, allowing the maintenance of its properties even under extreme conditions of pressure and temperature.

PROPERTIES

- Anti-rust and anti-oxidation protection at high and low temperatures.
- Excellent lubricating film stability which maintains all its properties even under extreme pressure and temperature conditions.
- Reinforced detergent / dispersant capabilities, ensuring that engines remain perfectly clean by inhibiting the accumulation of soot.
- Its low content in phosphorus helps catalyst converters function more efficiently and last longer and reduces emissions levels, thus making a positive contribution to environmental protection.
- High fluidity at low temperatures ensuring that a protective lubricant film covers all engine components immediately after starting

MAIN FEATURES

Density at 15°C, kg/l (D1298/D4052)	0.86
Viscosity Index (D2270)	172
Kinematic viscosity at 40°C, mm ² /s (D445)	85
Kinematic viscosity at 100°C, mm ² /s (D445)	14.1
Pour Point, °C (D97)	-39
Flash Point, °C (D92)	230

SPECIFICATIONS / APPROVALS

ACEA	A3 / B4
AP	ISN / CF
VW	502.00 / 505.00
MB	229.3

PROPERTIES:

- Excellent lubricating film stability which maintains all its properties even under extreme pressure and temperature conditions.
- Reinforced detergent / dispersant capabilities, ensuring that engines remain perfectly clean by inhibiting the accumulation of soot.
- High fluidity at low temperatures, thus providing a protective lubricant film on all engine components immediately after starting.

PACKAGING:

- IBC 1000 L
- Drum, 205 L
- Box, 4 x 5 L
- Box, 18 x 1 L

FPC 916 – NOV15 R&D – LUB - GPA

Help protect the environment: do not dispose of used oils by dumping them in drainage systems, waterways or on the ground. GL15003a

ABOUT GALP:

An integrated Energy Company with worldwide recognition in sustainability initiatives and awarded the top place in this field from the Dow Jones Sustainability Indices for eight years running, GALP is proud of top high quality tested and fully approved products. From base oils to aromatics, motor oils and fuels, the meaning of being an integrated oil company means just that the full life cycle of its products goes from the exploration and production, refining and production of finished lubricants. Not a simple blender, being an integrated company means, literally, producing a product from its source to the consumer hands.
